1 Introduction

Thank you to have downloaded Business People Asset. In this asset you find 20 low-poly models (10 men and 10 women) with a classic skeleton. Models are realistic. You can use them in your scene to describe a real world.

2 Dependencies

To use the asset in correct ways, you need to download the following dependencies:

1. Standard Assets/Characters/ThirdPersonCharacter/Animation/

After to have downloaded Standard Assets, please import Business People package. The 2 packages should be on the same level.

If you have downloaded Business People before Standard Asset, reopen Unity to be sure demo work well.

3 Demo

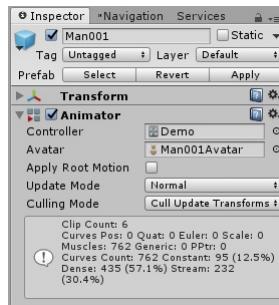

You can see all models in the demo scene. To watch the demo, open the scene which is in folder 'Demo/' and execute it. In the first part, you find models in "T position". In the second part, models are in movement.

Caution

If there is a problem with demo scene, refer you to Dependencies section.

4 How to use the asset ?

This asset is simply to use. You select your model that you want and you put it in your scene. Then, you can attribute an animator to give life.

All items of 'Standard Asset/Characters' can be used with models.

5 Models
